Professional Summary

Full Stack Engineer with 4+ years building and scaling production **Ruby on Rails** and **React** systems for global remote teams. Proven track record modernizing legacy systems, improving reliability and performance, and shipping user-focused features end-to-end. Comfortable in distributed Agile teams across US and UAE timezones.

Work Experience

Full-Stack Engineer

Escrow.sa – Software escrow platform for the Saudi (KSA) market

Riyadh – Remote

Mar 2026 – May 2026

- Architected a tri-party software escrow platform on **Rails 8** with **Hotwire**, **PostgreSQL**, **Solid Queue**, and **action_policy** RBAC, plus bilingual Arabic/English UI with full RTL support.
- Built an encrypted **Forgejo Vault** with scheduled mirroring, **SHA-256** deposit integrity verification, and a senior-engineer manual review workflow.
- Designed a multi-stage release-approval pipeline on **AASM** state machines and **PaperTrail**, with **KMS**-backed encryption and append-only audit logs hosted in the **KSA zone** for Saudi data-residency and CST compliance.

Founder & Lead Engineer

AgencyPortal – Multi-tenant SaaS for Umrah travel agencies

Pakistan – Self-directed

2025 – Present

- Architected a multi-tenant **Rails 8** SaaS end-to-end with custom-domain tenancy, **Pundit** RBAC, and the Solid stack (**SolidQueue**, **SolidCache**, **SolidCable**) with zero Redis dependency.
- Built a portal-integration layer normalizing **12 supplier APIs** (Laravel cookie sessions, JWT SPAs, **TOTP-secured Selenium** logins) behind common Fetcher, Booker, and SessionManager services.
- Designed a booking state machine with audience-aware hold timers and a double-entry ledger for stacked per-agent and per-portal markups. Deployed on **Hetzner** and **Cloudflare** with **Caddy** on-demand TLS. Live in production.

Senior Software Engineer – Devsinc

Lahore, Pakistan – Hybrid

Jun 2021 – Present

Rails + React full-stack engineer staffed across US and global client engagements:

Ecolink – Communication platform for insurance agencies

California – Remote | Dec

2024 – Present

- Built **multi-tenant** real-time communication workflows on **Action Cable**, **WebSockets**, and **Turbo Streams** for live call routing, chat, SMS, and compliance logging.
- Integrated and enhanced CRM and telephony APIs (**RingCentral**, **AMS360**, **Applied EPIC**, **Infobip**, **8x8**), improving reliability and data consistency across systems. Contributed to a **50%** engagement lift.
- Shipped a **RingCentral** Call Analytics Reporting Module with scheduled email delivery via **SendGrid**, downloadable **PDF** reports, saved schedule views, and an aggregation service for daily/bi-weekly call metrics.
- Built an **AI call pipeline** that converts audio into transcripts and summaries via an internal AI microservice with live **Action Cable** updates, reducing manual effort by **50%**.
- Shipped **Inteveo IQ**, an **AI-driven Priority Task Board** that turns each transcribed call into prioritized actionable items (Growth / Maintenance / Relationship) with sentiment scoring and AI insights, boosting agent follow-up efficiency by **90%**.

Intellirent – Real estate and rental marketing and applicant screening

Texas – Remote | Jan 2023 –

Dec 2024

- Built automated fraud and identity checks using **Experian APIs**, cutting manual verification time **90%** and improving applicant risk scoring accuracy.
- Redesigned **React** front-end on **GraphQL** with **DRY Rails** refactors, cutting API load **40%**, lifting

responsiveness **55%**, and lowering server costs **20%**.

- Revamped a 10-year-old legacy PDF generation system, achieving **63%** faster execution, **77%** lower memory, and **33%** fewer errors (verified via Scout APM).

Biomark – Healthcare platform for secure patient-doctor-lab connectivity *Singapore – Remote | Jun 2022 – Jan 2023*

- Developed **HIPAA-compliant** data pipelines using **HL7 APIs**, enabling secure healthcare data exchange and reducing manual processing by **47%**.
- Automated onboarding workflows and designed modular healthcare microservices, boosting team productivity by **70%** and developer efficiency by **30%**.
- Implemented Rails best practices for modularity and separation of concerns, laying the groundwork for a scalable API architecture.

SaaS LTV Growth – E-commerce app for revenue optimization *Wilmington – Remote | Jun 2021 – Jun 2022*

- Migrated REST endpoints to the **Shopify GraphQL API** with CI/CD via **GitHub Actions**, reducing server load by **36%** and accelerating release cycles.
- Optimized background job queues with **Redis** batch processing, eliminating **N+1** queries and improving resource usage by **43%**.
- Reduced **Largest Contentful Paint** by **72%** via Redis caching and backend query optimization. Built product customization features that lifted customer engagement by **37%**.

Projects

Escrow.sa (Software Escrow Platform – KSA) escrow.sa

- A tri-party software escrow platform for the Saudi market that holds vendor source code in an encrypted vault and releases it to beneficiaries only under legally defined conditions, with bilingual Arabic/English support and Saudi data residency.

AgencyPortal (Multi-Tenant Umrah Travel SaaS) hasnaintravel.com

- A multi-tenant SaaS for Umrah travel agencies that unifies inventory and bookings from 12 supplier portals into one branded interface, with per-agency custom domains and live production deployment.

Intellirent (Real-Estate | Rental-Marketing) myintellirent.com

- A platform that allows rental marketing agents to display property listings and streamlines applicant submissions with automated screening features.

Biomark (HealthCare) biomarking.com

- A platform that connects patients, doctors, and labs to facilitate secure, real-time updates and data sharing between parties.

SaaS LTV Growth (E-Commerce) [product-customizer](https://product-customizer.com)

- An app enabling merchants to offer customizable product options (engraving, color swatches, image uploads) with enhanced visuals and premium charges, increasing revenue and personalization.

Skills

Languages: Ruby, JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frameworks & Libraries: Ruby on Rails, React, Redux, React Query, Stimulus, Tailwind CSS, Styled Components

APIs & Integrations: REST, GraphQL, WebSockets, Action Cable, RingCentral, AMS360, Applied EPIC, Infobip, 8x8, Shopify, HL7

AI & Data: LLM evaluation, behavioral data annotation, prompt quality review, data collection, web scraping/parsing, Apify

Databases & Caching: PostgreSQL, MySQL, Redis, Firebase (NoSQL)

Cloud & DevOps: AWS (Lambda, S3, CloudWatch), Docker, CI/CD (GitHub Actions, Jenkins), Heroku

Testing & Tools: RSpec, Jest, Git, GitHub, Postman, Jira, Agile/Scrum
